The object of the Fund is to secure the claims of the covered clients against the members of the Fund (i.e. TERATO) by the payment of compensation for their claims arising from the covered services provided by its members, so long as failure by the member to fulfill its obligations has been ascertained.

The term failure denotes the inability of the Company to:

- a) either return to its covered customers funds owed to them or funds which belong to them but are held by the Company, directly or indirectly, in the context of the provision by the Company to the said clients of covered services, and which the latter requested the Company to return, in exercising their relevant right, or
- b) to hand over to the covered clients financial instruments which belong to them and which the Company holds, manages or keeps on their account, including circumstances where the Company is responsible for the administrative management of the said financial instruments.

The payment of compensation by the Fund to the clients of its members is subject to the existence of a well-founded claim by the clients against the member of the Fund.

Preconditions for the Initiation of the Compensation Payment

The Fund initiates the compensation payment procedure when at least one of the following preconditions is fulfilled:

Investor Compensation Fund

- a) the Securities and Exchange Commission has determined by Resolution that the Company is unable to meet any of its duties arising from its investors-clients claims, in connection with the covered services it has provided, as long as such inability is directly related to the Company's financial position which has no realistic prospect of improvement in the near future, or
- b) A judicial authority has on reasonable grounds, directly related to the financial position of the Company, made a ruling which has the effect of suspending the clients' ability to lodge claims against the Company.

Upon issuing a decision by the United States or by the Court in accordance with paragraph a) or b) above respectively, on the commencement of the compensation payment procedure, the Fund will publish in at least three national newspapers an invitation to the covered customers to make their claims against the Company arising from the covered services, designating the procedure for the submission of the relevant applications, the deadline for their submission and their content.

Compensation Amount

The amount of compensation payable to each covered client is calculated in accordance with the legal and contractual terms governing the relation of the covered client with the Company, subject to the off-set rules applied for the calculations of the claims between the covered client and the Company. The calculation of the compensation payable derives from the sum of the total established claims of the covered client against the Company, arising from all covered services provided by the Company and regardless of the number of accounts of which the customer is a beneficiary, the currency and place of provision of these services.

The valuation of the financial instruments pertaining to the compensation payable to the covered client is carried out based on the value of the day:

- a) of publication of a court ruling which has the effect of suspending the investors ability to lodge claims against it based on reasonable grounds directly related to the financial circumstances of the Investment Firm (i.e. TERATO) which has subscribed to the Fund;
- b) of publication of the decision of the United States as an International Investment Company that an Investment Firm, which has subscribed to the Fund, is unable to meet any of its duties arising from its customers' claims in connection with the covered services it has provided, as long as such inability is directly related to its financial circumstances in respect of which no realistic prospect of improvement in the near future seems foreseeable.

Insofar as the amount of the claim determined exceeds the amount of twenty thousand Dollars (\$20.000), the claimant receives as compensation the amount of twenty thousand Dollars (\$20.000).

Where the investment firm providing services to its clients through the branch situated in a third country, the amount of the maximum compensation payable to the clients of the said branch comes up, per client, to the lump sum paid by any investor compensation scheme in operation in the third country, without exceeding the amount of twenty thousand Dollars (\$20.000).
